What is a mobile crypto mining container?

(The container is designed to protect the internal components during transportation. Minor scratches won't affect the core functionality of the unit.) Minerbase, mobile crypto mining containers, provides indoor and outdoor deployment setup. Available in air cooling, immersion liquid cooling and heat recovery.

Why do large scale mining operators use hydro containers?

Large scale mining operators use hydro containers to dissipate heat and maintain proper miner temperatures while running next generation miners such as the Antminer S21+hydro and Whatsminer M63 hydro. Once I pick a container, how does it ship to my desired location? Our container source will coordinate shipping options.

Why should you use a minerbase mining container?

It provides you with a high flexibility to ship or transport your crypto mining farm to any location with the best electricity rate. Increased miner capacity in Minerbase mining containers also help you be more cost effective in logistics.
