-----  
Is Ivory Coast a reliable power supplier?

Unlike other countries in sub-Saharan Africa, the Ivory Coast is a reliable power supplier in the region, exporting electricity to neighbouring countries such as Ghana, Burkina Faso, Benin, Togo, and Mali. Ivory Coast aims to produce enough renewable energy by 2030 to reduce its greenhouse gas emissions by 28%.

Will Ivory Coast build a solar power plant in Tchologo?

Ivory Coast aims to increase its installed power capacity to 3.5 GW by 2025 and 8.6 GW by 2040. As part of this strategy, the country's Ministry of Mines, Petroleum and Energy signed a memorandum of understanding (MoU) with renewable energy company Kong Solaire earlier this month to construct a 50 MW solar power plant in the Tchologo region.

Why is Ivory Coast investing 2021-2025 in energy infrastructure?

This comes as the Ivorian government prioritizes infrastructure development to maintain the country's high rate of economic growth. In 2021, Ivory Coast launched its National Development Plan 2021-2025, which calls for an investment of \$20 billion towards energy infrastructure.

What is energy in Ivory Coast?

Energy in Ivory Coast concerns the production and export of energy and electricity in the Ivory Coast. The country has a capacity of 2,200 megawatts (MW) energy production.

When it comes to energy storage solutions in West Africa, Côte d'Ivoire has emerged as a key player. The country's growing demand for reliable electricity--fueled by a 6% annual GDP ...

Ivory Coast's state-run utility Ci-Energies has launched two tenders for the construction of 100 MW solar power plants, each connected to 33 MWh of storage capacity. In ...
