How many circuit breakers do you supply to Russia?

Over the years we supplied about 1.500 circuit breakers for voltage 110,220 and 500 kV to the Russian market.

Can a circuit breaker be installed outside?

Yes, circuit breakers can be installed outdoors, but only if they are specifically designed or housed for outdoor use. Exposure to weather, moisture, UV radiation, and temperature fluctuations demands special protection.

How do I choose the best outdoor Breakers?

Weatherproof Enclosures: Outdoor breakers must be installed in NEMA 3R, 4, or 4X-rated enclosures that protect against rain, snow, ice, and dust. IP Ratings: Look for an Ingress Protection (IP) rating of at least IP55 (dust protected and water jet resistant) for reliable outdoor performance.

Over the years we supplied about 1.500 circuit breakers for voltage 110, 220 and 500 kV to the Russian market.
