Spain has standardized on type F sockets and plugs. Type C and type E plugs can also be used thanks to their compatibility with type F sockets. Typically, type C plug sockets ...

According to current regulations (article 10 of RD 1454/2005) it is compulsory to have this circuit breaker in homes. If you do not have it, a series of penalties will be applied to your electricity ...

But a brief search on the net did not come up with any definitive info on replacing batteries or on what type of batteries they are. My own thought, and as much as I like the ...

I have put back together the entire gimbal already, and I would much rather superglue a plastic piece to the motor than fully disassembling the gimbal again and replacing ...

I will be testing all circuits with 6V battery and multimeter and get an electrician to inspect the work, connect to the breaker box, and to pass a certificate Boletin.

Spain has standardized on type F sockets and plugs. Type C and type E plugs can also be used thanks to ...

I'm replacing the left front leg. I can't get the spring loading to work. Leg just flops around. Any help?

In the first half of 2025, China exported 464 high-voltage breakers, supplying 159 buyers from 132 different manufacturers. Major destinations include Vietnam, Uzbekistan, and ...

RC not connected to mobile device after replacing button board Mick P Dec 13, 2024 M

Repair Service: Replacing the LR arm axis was honestly a relatively easy repair. After replacing the arm, and powering up the gimbal does its vertical and horizontal tests, but ...

Spain Must include: China; Spain since the 7 Tips for Sourcing Circuit Breakers from China in Bulk In the first half of 2025, China exported 464 high-voltage breakers, supplying 159 buyers from 132 different manufacturers. Major destinations include Vietnam, Uzbekistan, and ...

Hi everyone, My DJI RC with the integrated screen, bought with my Mini Pro 3 two years ago, is now showing its age. Even when charged to 100%, it drops to 80% after a few ...

Homeowners in Spain must navigate various electrical regulations to ensure their properties are safe and compliant with national standards. Whether you are moving into a new ...

Just by replacing vision sensors It will not work . Professional calibration by specific tool is required . Contact any drone repair or service in your area I just wait, official ...

If you own a property in Spain, and the property was built before 1995, then chances are that your electrical system may not be up to standard and in some cases may be dangerous.

You can try replacing it. I'd use a 2A standard diode. The leads and body look too fat for a simple 1N4001 to 1N4007 range. Also, are you sure it's the problem? Is this the switch ...
