Fortis Energy, a Turkey-based developer and Independent Power Producer (IPP), recently made headlines by acquiring a solar and battery energy storage system (BESS) ...

Quick Summary: Serbia is making waves in renewable energy integration through strategic energy storage battery installations. This article explores how these projects strengthen grid ...

Fortis Energy, a Turkey-based developer and Independent Power Producer (IPP), recently made headlines by acquiring a solar and ...

The Serbian Government has approved the development of a spatial plan for constructing large-capacity self-balancing solar power plants paired with battery energy ...

Serbia's TSO Elektromreža Srbije (EMS) confirmed to Balkan Green Energy News that it has received the first applications for signing the agreement on the preparation of the connection ...

This hybrid solar and storage project represents a strategic investment aimed at enhancing grid reliability, integrating renewable energy, and reducing dependence on fossil ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

UGT Renewables is working with Serbia's EPS to provide a series of self-balanced utility-scale solar projects, including battery storage, to every corner of Serbia.

Discover how Serbia is leveraging cutting-edge energy storage solutions to stabilize its grid and accelerate
