-----  
Does Belgium have a fast charging infrastructure?

Belgium has made a remarkable leap in the development of its ultra-fast charging infrastructure, doubling the number of charge point operators (CPOs) in just one year.

Which EV chargers are the best in Belgium?

According to Chargemap's rankings, a reference platform for EV users, operators such as Fastned, Electra, Allego, TotalEnergies, and IONITY are among the best in Belgium. This is attributed to the ease of use, the reliability of the chargers, and the effective delivery of the promised power they offer.

What is the growth rate of AC & DC chargers in Belgium?

Despite this, the usage rates of both AC and DC chargers are showing gradual growth, with an annual increase of approximately 1%. The Belgian government, aware of the importance of robust infrastructure to support the rise of electric mobility, has set ambitious targets for the development of the fast-charging network.
