Singapore could sit at the "core" of new regional electricity grids in Southeast Asia, according to research from Rystad Energy.

Singapore on Thursday officially opened the largest energy storage system in Southeast Asia as part of the city-state's efforts to guarantee energy security amid the global ...

SINGAPORE - A first-of-its-kind floating power plant with batteries that can refuel liquefied natural gas (LNG) vessels, charge ...

Developed in collaboration between the Energy Market Authority (EMA) and SP Group, this innovative project aims to enhance the stability and efficiency of Singapore's ...

Singapore is emerging as a pivotal hub for a future Southeast Asian regional power grid, with upcoming interconnections to neighboring countries expected to deliver 25 GW of ...

Sembcorp has successfully piloted a battery stacking solution at the nation's largest operating battery energy storage project, while ...

Through a partnership between EMA and SP Group, Singapore deployed its first utility-scale ESS at a substation in Oct 2020. It has a capacity of 2.4 ...

Built across two sites on Jurong Island, our ESS enhances Singapore's grid resilience by mitigating the impact of solar intermittency as the republic progresses towards achieving its ...

Sembcorp has successfully piloted a battery stacking solution at the nation's largest operating battery energy storage project, while Mitsubishi has announced plans for ...

Singapore on Thursday officially opened the largest energy storage system in Southeast Asia as part of the city-state's efforts to ...

Through a partnership between EMA and SP Group, Singapore deployed its first utility-scale ESS at a substation in Oct 2020. It has a capacity of 2.4 megawatts (MW)/2.4 megawatt-hour ...

Singapore will achieve its target of having "giant batteries" to store at least 200MW of energy three years early. The 200MW system is ...

Singapore will achieve its target of having "giant batteries" to store at least 200MW of energy three years early. The 200MW system is currently being installed across two sites ...

Singapore's Jurong Island looks set to host a combined cycle gas turbine (CCGT) power plant with integrated battery storage.

Built across two sites on Jurong Island, our ESS enhances Singapore's grid resilience by mitigating the impact of solar intermittency as the republic ...

SINGAPORE - A first-of-its-kind floating power plant with batteries that can refuel liquefied natural gas (LNG) vessels, charge electric harbour craft and even generate electricity ...
