-----

Whether you're living off-grid, building a container home/shop/garage, or just need remote power, this DIY setup is an efficient solution.

Multiple inverter brands are available in our solution to meet regional ratings and approvals. Multiple AC/DC supply inputs: multiple connections to renewable energy sources (eg. ground ...)

AIMS Power sells signature DC to AC power inverters, solar panels, deep-cycle batteries, charge controllers and more. Custom solar kits and US based tech support.

A Higher Wire system includes solar panels, a lithium iron phosphate battery, an inverter--all housed within a durable, weather-resistant shell. Our systems can be deployed ...

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini ...

A Higher Wire system includes solar panels, a lithium iron phosphate battery, an inverter--all housed within a durable, weather ...

Designed for solar power plants, this innovative solution combines ...

AIMS Power sells signature DC to AC power inverters, solar panels, deep-cycle batteries, charge controllers and more. Custom solar kits and US ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Combining an inverter and battery charger in one enclosure enables many sophisticated features, such as PowerAssist and PowerControl, that are ...

Combining an inverter and battery charger in one enclosure enables many sophisticated features, such as PowerAssist and PowerControl, that are perfect for mobile, off-grid, backup and ...

Designed for solar power plants, this innovative solution combines advanced Lithium battery storage technology with a high-performance 500kW Hybrid Inverter. Featuring a modular and ...

Multiple inverter brands are available in our solution to meet regional ratings and approvals. Multiple AC/DC supply inputs: multiple connections to ...

The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power station using solar panels.

All-in-One Space Saving Design: The LiTime 48V 3500W pure sine wave inverter integrates an MPPT controller, inverter, and charger into a single unit, effectively saving ...
