Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

This could power a tiny home or other small off-grid setup like a hunting cabin. For me though, I'll start with just keeping my electric tractors and motorcycles charged!

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power station using solar panels.

Among the innovative solutions paving the way forward, solar energy containers stand out as a beacon of off-grid power excellence. In this comprehensive guide, we delve into ...

The Bluesun 20-foot BESS Container is a powerful energy storage solution featuring battery status monitoring, event logging, dynamic balancing, and advanced protection systems. It also ...

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

To prepare the 20-foot shipping container for housing heavy equipment and intricate wiring systems, several modifications were made: Reinforcements were added to ensure the ...

Whether you're living off-grid, building a container home/shop/garage, or just need remote power, this DIY setup is an efficient solution.

Get up close and personal with this super detailed, impeccably illustrated hi-res PDF of our full off-grid power
