Both curtain walls and spandrels from Onyx Solar elevate your building's sustainability and aesthetic appeal, providing customizable options and cutting-edge design. Explore how our ...

To address this issue, this study proposed a multi-function partitioned design method for VPV curtain walls aimed at reconciling the competing demand of different functions.

Solar panels, water heaters and heat pumps will become mandatory in all new and reconstructed buildings. Centralized heat supply ...

Solar panels, water heaters and heat pumps will become mandatory in all new and reconstructed buildings. Centralized heat supply will be transferred to a closed system. In ...

The Solar Innova modules of photovoltaic integration technology used in the BIPV installations are multifunctional. That is, in addition to generating electricity, they also meet all the requirements ...

This article will delve into the latest statistics on solar energy development in Uzbekistan, reviewing the key achievements of 2024 and outlining the ambitious plans set for 2025 and ...

The Solar Innova modules of photovoltaic integration technology used in the BIPV installations are multifunctional. That is, in addition to generating ...

This article explores how this technology integrates solar energy generation with modern architectural design, specifically focusing on manufacturing advancements in Samarkand - ...

Starting from June 1, 2025, Uzbekistan will introduce new heating supply requirements. All new and

Solar curtain wall of office building in Uzbekistan
