The government introduced new Feed-in Tariffs (FiTs) in April 2025, offering higher rates for solar projects with storage--up to a premium for ground-mounted and floating setups.

Last week, our Managing Director Thomas Jakobsen joined two high-level panels at the annual Solar & Storage Live Vietnam 2025, sharing practical insights into Vietnam's ...

We analyze the business implications of Decision 988/QD-BCT, which revises Vietnam's feed-in tariff (FiT) rates for solar power projects.

Last week, our Managing Director Thomas Jakobsen joined two high-level panels at the annual Solar & Storage Live Vietnam 2025, ...

The study group also visited two solar energy companies: one Vietnamese and one Chinese. China supplies about 90% of the ...

The study group also visited two solar energy companies: one Vietnamese and one Chinese. China supplies about 90% of the photovoltaic (PV) modules used in the ...

The two sides conducted a systematic discussion on the development plan for energy storage and clean energy in Vietnam, focusing on topics such as policy support ...

What challenges is Vietnam's solar power sector facing? The industry faces multiple challenges, including grid congestion, delays in ...

Explore the rapid growth of the Vietnam solar market. Discover major solar farm projects, key government incentives, and the international investments fueling its green energy ...

Explore the rapid growth of the Vietnam solar market. Discover major solar farm projects, key government incentives, and the ...

What challenges is Vietnam's solar power sector facing? The industry faces multiple challenges, including grid congestion, delays in implementing competitive bidding, and ...

With global costs for solar, wind, and battery storage systems continuing to fall, Vietnam could replace fixed FiTs with transparent ...

Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing ...

We analyze the business implications of Decision 988/QD-BCT, which revises Vietnam's feed-in tariff (FiT) rates for solar power ...

China's solar power enterprises have been building their industry chains in Vietnam since 2014. Over a dozen companies have invested more than \$2 billion to build the ...

Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, ...
