---

-Solar reached new highs in the majority of EU countries in June 2025, with at least thirteen countries recording their highest ever month of solar generation. These solar records ...

In 2024, the EU was on track to achieve the target of the EU Solar Energy Strategy of 600 GWac (~720 GWp) installed PV capacity by 2030. Based on preliminary data for 2024, ...

In 2024, the EU was on track to achieve the target of the EU Solar Energy Strategy of 600 GWac (~720 GWp) installed PV capacity by ...

For the first time, solar was the largest source of electricity in the EU last month, supplying a record 22 percent of the bloc's power. At least 13 countries saw solar output hit a ...

SolarPower Europe is the award-winning link between policymakers and the solar PV value chain. Get to know the SolarPower Europe team working to transform the European ...

Solar generated 22.1 per cent of the EU's electricity last month, up from 18.9 per cent a year earlier, as record sunshine and continued solar installations pushed output to 45.4 ...

The EU has doubled its solar capacity in the last three years. How have subsidies made this possible, what support is still available, and what still needs to happen?

Under the European Green Deal and the REPowerEU plan, solar power is a building block of the EU's transition to cleaner energy. Its accelerated ...

The highest solar potential is concentrated in the Iberian Peninsula, the lowlands of Romania, and parts of Central-Eastern Europe, all of which face economic challenges but ...

Solar power consists of photovoltaics (PV) and solar thermal energy in the European Union (EU). Solar power is growing in every EU country.

Solar became the EU's largest source of electricity for the first time in June 2025. National records for solar and wind rolled in across EU countries in May and June, pushing ...

Under the European Green Deal and the REPowerEU plan, solar power is a building block of the EU's transition to cleaner energy. Its accelerated deployment contributes to reducing the EU's ...
