What are solar-powered sign lighting kits?

Our Solar-powered Sign Lighting pre-engineered kits are a cost-effective way to illuminate signs that pay for themselves. Kits include industry-leading LED light performance, easy Plug & Play setup and installation, and a minimum of 3-day backup power in case of inclement weather. No wiring, trenching or electric bills.

What is a Sun-in-one solar sign kit?

Sun-In-One Solar Sign Kits are not just for sign lighting. In fact, they can be used for a wide variety of applications: flood lighting, monument/flag lighting, parking lot lighting, security lighting, billboard lighting, and to power LED and channel letter signs.

What are solar sign lights?

Solar sign lights are a type of outdoor lighting that use solar energy to illuminate signs, banners, billboards, and other types of displays. Solar sign lights are eco-friendly, cost-effective, and easy to install and maintain. There are different types of solar sign lights that can suit different needs and preferences. Here are some of them:

How do solar signs/signage lighting systems work?

Solar signs/signage lighting systems collect sunlight during the day to power your sign lighting at night.

We can supply solar LED modules, or LED ribbon to install within sign cabinets or channel lettering. We also offer solar power systems to retro-fit existing signs to solar powered.
