In 2020, the World Bank, in response to South Sudan's transitional government's request, set up the Pathways to Electricity Access Expansion in South Sudan project. As part of the initiative, ...

Is it viable to run a solar factory off-grid in South Sudan? Explore the technical and financial feasibility of a solar-plus-storage system for industrial power.

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

We have developed two different containerized systems: our mobile Solartainer Amali and our scalable Solartainer Kani. An intelligent mini ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

SustainSolar delivered their off-grid system in a 20-foot container equipped with SMA solar and battery inverters and BYD batteries. This is the first solar-battery-hybrid power ...

Aptech Africa recently successfully designed, built and installed the first off-grid solar battery hybrid power system in South Sudan. This USAID-funded project, developed by ...

To tackle energy poverty in South Sudan, SunGate Solar pioneered the deployment of a solar micro-grid to provide reliable 24-hour power to off-grid communities.

Aptech Africa recently successfully designed, built and installed the first off-grid solar battery hybrid power
