What is the South Tarawa water supply project?

The Green Climate Fund, in partnership with the government of Kiribati, the Asian Development Fund, the World Bank and the Global Environment Facility, is enabling the implementation of the South Tarawa Water Supply Project, involving the construction of two desalination plants and a solar PV system to augment Kiribati's water supplies.

How many desalination plants are there in South Tarawa?

Construction of the project's 2 desalination plants, at Betio and McKenzie, is complete. Commissioning of the McKenzie plant is ongoing, and the plant is expected to commence delivering water to the residents of South Tarawa before the end of Q4 2024.

What is happening in South Tarawa?

Climate resilient and low-carbon water supply infrastructure constructed. Awareness of WASH and climate change issues raised. Rebidding for upgrading of the South Tarawa water supply networks commenced in mid-November 2025. WASH and climate change awareness raising activities commenced in 2022 and are ongoing.

How many people does PUP serve on South Tarawa?

Through a system of above ground reservoirs water tanks and water tank towers, PUP serves some 60,000 people on South Tarawa. However, the supplies are limited: PUP has some 1,600 m³/day which is not enough to supply the whole population.
