Is PV module manufacturing in Southeast Asia under pressure?

Thanks to new data, this edition includes entries such as ICA Solar and United Renewable Energy (URE), reflecting the evolving landscape of PV manufacturing in the region. Despite strong ambitions, PV module manufacturing in Southeast Asian is currently under pressure.

What is the Southeast Asia Solar supply chain map?

This edition of the Southeast Asia Solar Supply Chain Map provides a detailed snapshot of current realities and future ambitions, as the region navigates complex trade, investment, and production challenges.

What's new in the 2025 Southeast Asia Solar supply chain map?

The first 2025 edition of the Southeast Asia Solar Supply Chain Map includes significant revisions and additions, driven by valuable market feedback and the region's evolving geopolitical and industrial dynamics.

Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. Technological advancements are dramatically improving ...

Despite strong ambitions, PV module manufacturing in Southeast Asian is currently under pressure. Operational capacities have been significantly reduced or temporarily halted, ...

Southeast Asia's solar industry is poised for remarkable growth, driven by strong production, rising usage, a dynamic market, robust exports, and increasing local utilization.

Southeast Asia's solar industry is poised for remarkable growth, driven by strong production, rising usage, a dynamic market, ...

Asia-Pacific represents the fastest-growing region at 50% CAGR, with manufacturing scale reducing system prices by 20% annually. Emerging markets in Africa and Latin America are ...

Once considered viable alternatives to China for solar manufacturing, Southeast Asian countries like Vietnam, Thailand, and Cambodia are now facing significant disruptions.

Once considered viable alternatives to China for solar manufacturing, Southeast Asian countries like Vietnam, Thailand, and ...

Cut energy costs with ENGIE's onsite solar and battery storage solutions -- zero CapEx models for Southeast Asia's commercial and industrial sectors.

The market for alternative renewable energy is expanding extensively in Southeast Asia, where hundreds of millions are without reliable electricity. Off-grid solar container ...

The US recently imposed tariffs of as high as 3,500 per cent on solar exports from four South-east Asian markets: Cambodia, Malaysia, Thailand and Vietnam. These countries ...

Meet the energy storage container - Southeast Asia's unsung hero in the energy transition. These modular powerhouses are reshaping how the region stores and distributes ...

Before this latest round of tariffs, Dialogue Earth spoke with experts and analysts to hear more about Chinese solar manufacturers" ...

Before this latest round of tariffs, Dialogue Earth spoke with experts and analysts to hear more about Chinese solar manufacturers" presence in Southeast Asia, their reception, ...
