-----

As Europe continues its transition to a more sustainable and resilient energy system, energy storage remains a critical enabler of renewable energy expansion. The report ...

TotalEnergies and Canadian Solar are boosting the future of energy storage in Europe with major projects in Germany and the UK. As ...

The Swedish-origin company Capture Energy has rapidly scaled across Northern Europe thanks to its integrated energy-storage offering and its ability to connect battery ...

It offers near real-time data on the deployment of storage facilities across Europe, including an interactive dashboard and map, and ...

When a Marsala producer installed 3 storage containers with their PV array, something clicked. Their energy bills dropped 40% - but crucially, the voltage regulation prevented sensitive ...

A new interactive platform--the European Energy Storage Inventory --has been launched to provide near real-time insights into energy storage deployment across the EU, ...

TotalEnergies and Canadian Solar are boosting the future of energy storage in Europe with major projects in Germany and the UK. As the European Union accelerates its ...

It offers near real-time data on the deployment of storage facilities across Europe, including an interactive dashboard and map, and identifies all the technologies, from battery ...

As Europe continues its transition to a more sustainable and resilient energy system, energy storage ...

The latest edition of the European Market Monitor on Energy Storage by the European Association for Storage of Energy and LCP Delta, released on 31 March, highlights ...

The goal is to list all planned and operational energy storage projects in Europe by location and technology. The dashboard can be ...

Research institutions across Europe are developing next-generation storage technologies, including advanced flow batteries, ...

This innovative tool systematically catalogizes all energy storage projects within Europe, from the first planning phase to operational operation.

This innovative tool systematically catalogizes all energy storage projects within Europe, from the first planning phase to ...

The latest edition of the European Market Monitor on Energy Storage by the European Association for Storage of Energy and LCP ...

The goal is to list all planned and operational energy storage projects in Europe by location and technology. The dashboard can be filtered by country, project status and technology.
