ADB said yesterday (25 November) that the US\$200 million loan will fund the Power System Strengthening and Renewable Energy ...

Sri Lanka is turning to energy storage systems, including battery and hydro-based solutions, to address the growing imbalance between solar energy supply and demand, a ...

A collaboration between the private sector and the Ceylon Electricity Board (CEB), the project incorporates battery storage and is a ...

The government of Sri Lanka has entered into a power purchase agreement (PPA) with Australian firm United Solar Group (USG) for a 700MW floating solar and storage project.

A contract has been awarded to SgurrEnergy to build Sri Lanka's first MW solar PV project, which will include a 12 MWh battery energy storage system (BESS).

This milestone venture stands as the first large-scale solar initiative in Sri Lanka, symbolizing a pivotal shift towards cleaner and more sustainable energy sources.

A collaboration between the private sector and the Ceylon Electricity Board (CEB), the project incorporates battery storage and is a key component of Sri Lanka's ambitious goal ...

The Rividanavi project, which marks a milestone in the nation's sustainable development and renewable energy sector, is also expected to reduce annual carbon dioxide ...
