How many sub-projects are there in Stockholms ström?

Stockholms Ström comprises about 50 sub-projects and, in addition to Svenska kraftnät, involves the region's other grid owners Vattenfall Eldistribution and Ellevio, and 21 municipalities in the Stockholm region. The background to grid renewal in Stock-holms Ström is a Government commission from 2004.

How can Sweden improve power adequacy?

Greater demand response and energy storage can contribute to improving power adequacy. The establishment of large amounts of offshore wind power in southern Sweden. More electricity intensive industry in northern Sweden.

What is the Hall substation upgrade?

This substation upgrade is the foundation for future development and marks a significant milestone in the ongoing efforts to modernize and expand Sweden's power infrastructure. The Hall substation, supplied by Linxon, replaces an aging substation that had reached the end of its operational lifespan.

When will hyperstrong supply a new energy storage project in Germany?

In the same month of May 2024, HyperStrong signed a supply contract with another client for the Waltershausen energy storage project in central Germany, with delivery taking place in December 2024 and grid connection in March of this year.

Don't miss the best of Stockholm! Our ultimate guide features the most iconic museums, historic landmarks, and essential sights. Plan your sightseeing tour here.

The programme started in 2022 and brings together investment linked to the industrial energy transition in northern Sweden, including the expansion of both power lines and substations.
