---

Syria is working to rebuild its energy sector after years of civil war and crippling sanctions. The country has suffered severe electricity ...

Damascus launches a fixed-tariff scheme for 2-10 MW green power and signs a deal with 20Solar Energy to build twin 100-MW solar plants, one with battery storage. Syria ...

Syria's new leaders are hoping renewable energy will now become more than a patchwork solution.

From the rooftop of his Damascus apartment, al-Jenan wipes dust off a solar panel he went into debt to purchase in 2019 -- a desperate but vital move ...

This in-depth editorial investigates how solar energy is becoming a national priority in Syria, the motivations behind the move, the challenges on the ground, and what the future ...

Syria is working to rebuild its energy sector after years of civil war and crippling sanctions. The country has suffered severe electricity shortages, with only those who can ...

The regulation outlines the licensing framework for grid-connected projects with capacities ranging from 2 MW to 10 MW, granting licenses that are valid for 20 years and ...

With the recent lifting of sanctions, Syria is looking to solar power as a solution to its ongoing energy crisis. For years, the country has struggled with intermittent electricity supply, ...

The regulation outlines the licensing framework for grid-connected projects with capacities ranging from 2 MW to 10 MW, granting ...

From the rooftop of his Damascus apartment, al-Jenan wipes dust off a solar panel he went into debt to purchase in 2019 -- a desperate but vital move during a time when state electricity ...

Solarvance delivers off-grid and hybrid solar systems tailored for challenging environments like Syria. Our systems offer dust-proof designs, salt resistance for coastal use, and battery ...

2MW on off grid container solar power system This scheme is applicable to the distribution system composed of photovoltaic, energy storage, power ...

2MW on off grid container solar power system This scheme is applicable to the distribution system composed of photovoltaic, energy storage, power load and power grid (generator).

With the recent lifting of sanctions, Syria is looking to solar power as a solution to its ongoing energy crisis. For years, the country ...

Syria's Ministry of Energy has signed a memorandum of understanding (MoU) with US-based 20Solar Energy to develop 200 MW solar PV capacity, as part of its plans to ...
