-----  
What is ACWA Power doing in Tashkent?

ACWA Power has reached a financial close for the US\$533 million 200 MW solar plant and a 500 MWh Battery Energy Storage System(BESS) project in Tashkent,Uzbekistan.

Where is Bess project located in Tashkent?

The PV plant and the BESS facility are situated 3.5 km apart,within Yuqorichirchik District and Parkent District respectively. Both districts are located within Tashkent Region. The overall project location lies about 20 km from Tashkent City.

How will a Bess system help Uzbekistan?

The BESS will help address the intermittency issues of renewable energy by storing surplus electricity generated during high production and releasing it during periods of low production. This system will ensure a stable and reliable electricity supply to the grid, aiding in meeting Uzbekistan's growing energy demand.
