To solve the problem of power shortage, African governments have proposed support for the development of rural electrification off-grid solution projects, utilizing clean energy such as ...

There is an Update query in progress, the Transaction is started at a higher level on the connection. In order to ensure that all server data is in a valid state for the Update, I need to ...

The tool helps construction site and fleet managers, electrical and energy planners or dispatchers with the energy planning, set-up and monitoring of a construction site.

The good news is a transaction in SQL Server can span multiple batches (each exec is treated as a separate batch.) You can wrap your EXEC statements in a BEGIN ...

I am trying to use transaction blocks on a SQL-Console with an Oracle DB. I'm used to use transaction blocks in PostgreSQL like BEGIN; <simple sql statement> END; but in ...

As long as you don't COMMIT or ROLLBACK a transaction, it's still "running" and potentially holding locks. If your client (application or user) closes the connection to the ...

With 95% efficiency, modular design, and seamless integration with renewable energy sources, this system enhances grid stability and reduces energy costs. Ideal for large-scale energy ...

A high-performance, all-in-one, containerized battery energy storage system developed by Mate Solar, provides C& I users with the intelligent and reliable solution to optimize energy ...
