The Port Authority of New York and New Jersey and Port Newark Container Terminals (PNCT), marked a milestone with the completion of one of the largest solar power ...

CIC engineers, furnishes and installs supercapacitor energy storage. The long service life and high usable capacity of supercapacitors equates to 5 ...

A shipping container solar system is a modular, portable power station built inside a standard steel container. A Higher Wire system includes solar panels, a lithium iron phosphate ...

AES Corporation has reached a significant milestone in advancing renewable energy with the completion of the first phase of the Bellefield Project, which is set to become ...

While developing off-grid solar systems for AT& T, we discovered Supercapacitor based energy storage, a new and very safe energy storage medium with incredibly large cycle life. AT& T ...

The major drawbacks of supercapacitors are low energy density and a high self-discharge rate. For example, a supercapacitor passively discharges from 100% to 50% in a month compared ...

Clarios, a world leader in cutting-edge energy storage solutions, announced that it is looking at potential sites in the United States for a next-generation technological campus ...

CIC engineers, furnishes and installs supercapacitor energy storage. The long service life and high usable capacity of supercapacitors equates to 5-10x lower lifetime cost of energy. ...

AES just completed the first half of Bellefield, which will become the largest solar + storage facility in the US. The 1,000-megawatt (MW) Bellefield 1 project in Kern County, ...

The Port Authority of New York and New Jersey and Port Newark Container Terminals (PNCT), marked a milestone with the ...

Once completed, the 2,000 MW Bellefield project is expected to be the largest solar-plus-storage facility in the United States.

AES just completed the first half of Bellefield, which will become the largest solar + storage facility in the US. The 1,000-megawatt ...

While developing off-grid solar systems for AT& T, we discovered Supercapacitor based energy storage, a new and very safe energy ...

A shipping container solar system is a modular, portable power station built inside a standard steel container. A Higher Wire system ...

AES Corporation has reached a significant milestone in advancing renewable energy with the completion of the first phase of the ...

The project includes a 1,150-megawatt (MW) solar facility with approximately 3.1 million panels and up to 1,150 MW (4,600 megawatt-hours) of battery storage - enough to ...
