-----  
Can shipping container structures be customized?

Yes, shipping container structures can be modified to fit virtually any purpose. When you order from a modification company like BMarko, professional engineers and architects will work with you to tailor a container with your goals in mind. Customizing a shipping container is a relatively fast process.

What can a converted shipping container building be used for?

Converted shipping container buildings can accommodate a variety of upgrades, transforming them into storage facilities, offices for your team, or even apartment rentals. What are the benefits of a shipping container building?

Can shipping containers be energy efficient?

Shipping containers can be energy efficient. Their flat roofs make them ideal for solar energy and heating. They can easily be outfitted with energy-efficient appliances, windows, and insulation, keeping your heating and cooling requirements low.

Can shipping container buildings be wired for electricity?

All shipping container buildings can be wired for electricity, as well as phone, internet, cable, and all other amenities available in your area.
