-----  
When did Vienna start supplying carbon-free energy?

Vienna's first citizens' power plant opened on 4 May 2012 on the premises of Donaustadt power station, and Wien Energie has been expediting the expansion of the model ever since. Over 30 solar and wind plants are already supplying the city with carbon-free energy.

What is Wien energy?

With its citizens' power plants, Wien Energie gives private individuals the opportunity to make a collective investment in clean energy. Wien Energie is in charge of operating the photovoltaic plants.

How many solar and wind plants are there in Viennese?

Over 30 solar and wind plants are already supplying the city with carbon-free energy. The thousands of local investors and the continued high levels of interest in the model demonstrate the Viennese public's strong commitment to climate action.

How does Wien energy benefit the environment?

Wien Energie is in charge of operating the photovoltaic plants. In return for their investment the co-owners of the plants receive an annual remuneration in the form of vouchers from Wien Energie over a period of five years. This community funding model benefits the environment, Wien Energie and investors alike.

Detailed info and reviews on 32 top Energy companies and startups in Vienna in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more.

At the heart of the facility's energy system are over 1,130 photovoltaic-thermal hybrid modules (PVT), supplied by the Saxony-based manufacturer Sunmaxx. Installation and ...

Vienna's first citizens' power plant opened on 4 May 2012 on the premises of Donaustadt power station, and

Wien Energie has ...

The container integrates all necessary components for off-grid or grid-tied solar power generation, including solar panels, inverters, charge controllers, battery storage ...

This article explores modular solar container technology, cost-saving strategies, and implementation case studies tailored for Central European markets.

But in the heart of Vienna, a trio of innovative startups is showing how behind-the-scenes technologies can help - and are indeed essential - to make renewable energy ...

When properly matched to application requirements, modular solar power station containers provide a structured and adaptable foundation for reliable microgrid and hybrid ...

WienCont increases solar power production - for clean energy and active climate protection. After the successful commissioning of our first photovoltaic installation in 2023, WienCont took ...

Vienna's first citizens' power plant opened on 4 May 2012 on the premises of Donaustadt power station, and Wien Energie has been expediting the expansion of the model ever since. Over ...

Renewable Energy companies in Vienna are dedicated to promoting the use of clean and sustainable energy sources to reduce carbon emissions and combat climate change.

Discover the top emerging companies in the Solar Energy Startups in Vienna, Austria, their funding activity, key investors, company highlights, and growth stages
