-----  
Where is the Wellington Battery energy storage system located?

The Wellington BESS will be located within the CentralWest Orana REZ. Image: Ampyr Australia. Renewable energy developer Ampyr Australia has secured Shell Energy Australia's remaining stake in the 1GWh Wellington battery energy storage system (BESS) in New South Wales.

What is the Wellington Battery energy storage system (BESS)?

The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW),Australia. The project will comprise a grid-scale BESS with a total discharge capacity of around 400MW. AMPYR Australia,a renewable energy assets developer in the country,owns 100% of the BESS project.

Will Wellington Bess be the largest battery storage project in NSW?

Once operational,it will have a capacity of 1,000-megawatt hours (MWh) of green power. This will make Wellington BESS one of the largest battery storage projects in NSW. Wellington is being constructed at 6773 and 6909 Goolma Road,Wuuluman NSW 2820.

What's going on with TransGrid & Wellington Bess?

The two companies launched a joint venturein 2022 to develop the 1GWh Wellington BESS,which will connect to an existing substation of high-voltage transmission system operator and manager Transgrid at Wellington and be adjacent to Central-West Orana Renewable Energy Zone (REZ).

In operation, the project will be one of the largest battery storage projects in NSW and will contribute to the overall storage capacity and reliability of the National Electricity Market (NEM).

Wellington takes its name from Arthur Wellesley, the first Duke of Wellington and victor of the Battle of Waterloo (1815): his title comes from the town of Wellington in the English county of ...
