Is a battery energy storage site coming to Staten Island?

One of the nation's largest battery energy storage sites is coming to Staten Island. Here's why residents are concerned. - CBS New York One of the nation's largest battery energy storage sites is coming to Staten Island. Here's why residents are concerned.

How many lithium-ion battery energy storage sites are in the pipeline?

STATEN ISLAND,N.Y. -- A new dataset shows that 13more lithium-ion battery energy storage sites (BESS) are currently "in the pipeline" for Staten Island,each one set to receive more than \$1.5 million in incentive awards from the New York Energy Research and Development Authority (NYSERDA) and be operational within the next few years.

What makes New York the future of batteries & energy storage systems?

Our network of universities, business incubators, training resources, testing and prototyping facilities in N.Y. makes the future of batteries and energy storage systems safer, reliable and environmentally conscious.

Why did New York approve a plan for a battery energy storage system?

CBS News New York Investigates' Mahsa Saeidi looked into the potential risks the sites could pose, and the state's response to previous incidents. The state approved a plan to convert the land into one of the nation's largest battery energy storage systems. Gov.

New Energy New York (NENY) is a comprehensive ecosystem of project initiatives that support the establishment of an American hub for Battery Innovation, Manufacturing, and Workforce ...

Now two years into this controversial endeavor, more than a dozen energy storage sites are currently in the pipeline for Staten Island, ...
