Does Photovoltaic Glass fit in a curtain wall?

No, the BIPV photovoltaic glass structurally does not differ from other types of conventional glazing. Therefore, it is integrated into the building envelope (curtain wall, facade, or skylight) like any construction material. What solar control and comfort advantages does photovoltaic glass offer in a curtain wall?

Why should you choose Onyx Solar photovoltaic curtain wall?

Thanks to Onyx Solar Photovoltaic Curtain Wall, buildings become a real power plant, keeping their design appeal, aesthetics, efficiency and functionality. They are more cost-effective than systems constructed with conventional glass. Reduce your monthly electricity costs by producing your own energy. REACH OUT NOW TO SEE HOW!

What Glass Technologies does Onyx Solar offer?

At Onyx Solar, we understand that every project is unique. To meet specific requirements, we offer two advanced photovoltaic (PV) glass technologies: amorphous silicon and crystalline silicon, both fully customizable.

What is a photovoltaic curtain wall?

They enhance thermal comfort and help prevent the greenhouse effect. A standard curtain wall offers no return on investment. In contrast, a photovoltaic curtain wall not only insulates the building but also generates power for over 30 years. This reduces monthly electricity bills and ultimately pays for itself over time.

The Giroux Unitized Curtain Wall System is a highly engineered, fully tested, prefabricated facade system. This groundbreaking approach is the intersection of technology and innovation, ...
