Who is Boston Solar?

Solar Residential Solar Commercial Solar The Boston Solar Team has delivered customized solar energy solutions to over 6,000 households in New England for the past 13 years. Recently, we have expanded into the commercial market, completing projects for small businesses and even the iconic Fenway Park, home of the Red Sox.

Does Boston Solar install solar?

From financing to design and installation, Boston Solar does it all. Our in-house installers are licensed and certified, meaning you can rest assured that your solar meets the most rigorous standards. Download the Boston Solar complete guide to going solar and get answers to all your questions about solar energy.

Where are solar panels made?

The world's largest solar panel manufacturer is Tongwei Solar (TW-Solar), which was founded in China in 2009. China's control over the solar industry goes beyond just manufacturing and extends to the entire supply chain, including the production of almost 80% of the silicon needed for solar panels.

Are solar panels made in America?

Because of all the varied materials and involved parties, fully American-made solar panel companies are hard to come by. SunPower solar panels, for example, are made, assembled and sourced outside of the U.S., but they're the highest-rated panels you can buy in the states. And in the industry in general.
