The Zimbabwe Electricity Transmission and Distribution Company (ZETDC) has set March 18, 2025, as the deadline for bids on its plan to construct three large-scale battery storage facilities...

ZESA's initiative to install a utility-scale battery energy storage system marks a significant milestone in Zimbabwe's energy sector. This project not only addresses the immediate power ...

ZESA's initiative to install a utility-scale battery energy storage system marks a significant milestone in Zimbabwe's energy sector. This project not only ...

The project aligns with Zimbabwe's broader energy transition goals, including increasing the share of renewable energy in its energy mix. The Government has set an ...

The Zimbabwe Electricity Transmission and Distribution Company (ZETDC) has set March 18, 2025, as the deadline for bids on its ambitious plan to construct three large ...

The ground-breaking ceremony for the 720MW Titan Power Plant Project on December 2, 2024, marks a historic moment in ...

Ngonyezi Pumped Hydroelectric Energy Storage Power Station, also Ngonyezi Power Station, is a planned 2,000 megawatt-hours (7,200 GJ) hydroelectric power station, across the Odzi River, a tributary of the Save River, in Zimbabwe. The power station is under development by Ngonyezi Projects Limited (NPL), a company based in Pretoria, South Africa. NPL will also build a floating solar farm on the existing Osborne Dam reservoir with capacity of 300 megawatts. On sunny day...

That's Zimbabwe right now, dancing between diesel fumes and lithium-ion dreams. The new 100MW
